Summary

A Web Developer skilled in coordinating with management and team members to ensure smooth workflow and task completion. Complemented by an education background and certification from HarvardX CS50, bringing a comprehensive understanding of modern web development technologies and best practices. Possesses full-stack development skills, with proficiency in languages such as Python and JavaScript/TypeScript, as well as various frameworks including React, Vue, and Django.

Education

HarvardX CS50   Apr 2023 – Dec 2023

Web Programming with Python and JavaScript

- Pursued a rigorous and dynamic educational experience through the HarvardX CS50 program, gaining comprehensive knowledge and skills in developing web applications using the latest technologies.
- Completed a series of interactive lectures, assignments, and projects that deepened understanding of programming concepts and best practices in web development.

HarvardX CS50   Apr 2023 – Dec 2023

Introduction to Computer Science

- Completed HarvardX Introduction to Computer Science, a rigorous and comprehensive online course covering fundamental concepts in computer science, algorithms, data structures, and problem-solving techniques.
- Developed a solid foundation in programming languages such as Python and C, with hands-on practice in coding assignments and projects.

Skills

Full-Stack Programming	**Programming Languages**	**Backend and Database Management**	**Modern Services and Frameworks**
Responsive and feature-rich web applications across the entire development stack	*JavaScript/TypeScript, Python*	*Relational Databases, API Development*	*React, Vue, Django, PostgreSQL, and more*
